

Sub-Challenge 1

31 October 2023 12:21

Sub-Challenge 1 - Use Copilot to Extend the Application!

This challenge is your opportunity to truly get hands-on with GitHub Copilot, GitHub Copilot works with you in your IDE to help you write code faster! Try and extend the application that you modernised in

Task 1

- Add a new feature, change the design or simply see where Copilot takes you.

Ideas

If you're struggling for ideas, why not try:

- Adding a live ticker of share prices onto the front page
- Allowing the user to pick shares and then dynamically filling in the Ask Price

Asking Copilot Chat for ideas!

Challenge

Optional Can you deploy this application to an Cloud environment Application? Ask Copilot Chat if you don't know how!
